

Scottish Smoking Cessation Conference 2007

A unique opportunity for those with an interest in the field of smoking cessation to share recent good practice, research and policy to help more smokers to stop smoking.

Tuesday 11 December 2007, Crowne Plaza Hotel, Glasgow

This is your chance to:

- Discuss the latest developments in smoking cessation, including intensive support, brief advice and pharmacotherapy within the Scottish context.
- Learn from best practice experience in Scotland and apply this learning to different patient groups, with an emphasis on hard-to-reach groups.
- Share information about the additional cessation support that is available in Scotland.

Oral and poster presentations

In addition to keynote plenary presentations, the conference will provide an opportunity for you to tell other delegates about your work (e.g. practice innovations, research) by giving an oral presentation at a parallel session. Alternatively you may wish to prepare a poster presentation.

A formal call for abstracts will be made on 12 July 2007. Full guidelines, including a copy of the abstract application form, will be made available at the News & Events section of www.healthscotland.com

Your abstract should be submitted by 21 September 2007. Abstracts will be reviewed and you will be notified of the outcome of your application by 12 October 2007.

Participation is invited across the smoking cessation workforce, including smoking cessation practitioners, training staff and managers of smoking cessation services.

*This conference is **free of charge** and so places will be limited. To register your interest please email Tamlyn Junner, Project Administrator at NHS Health Scotland, at tamlyn.junner@health.scot.nhs.uk, clearly stating your contact details. Booking forms and an outline programme will be available in late August 2007 (the full programme will be available in late October 2007).*
